Standardizing Deployment of AI Algorithms

Neil Tenenholtz and Brian Bialecki
ACR DSI Workgroup

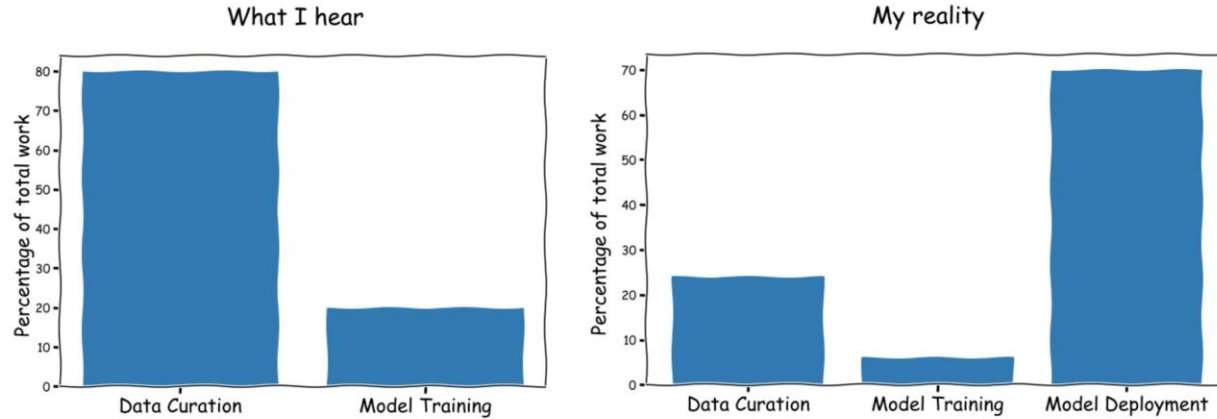

Disclosures

- Neil Tenenholtz is employed by Microsoft Research.

The Challenge of Deploying AI in Healthcare

by Felipe Kitamura

No Standards for Deploying AI Models in a Clinical Setting

MODEL DEVELOPERS
CREATE CUSTOM
PLATFORMS

IT ADMINS MANAGE
MORE COMPLEX
SOFTWARE

INTEROPERABILITY IS
NEAR NONEXISTENT

WORKFLOW
INTEGRATION
SUFFERS

COST INCREASES
DRAMATICALLY

Standardizing Model Deployment and Communication

Modularizes algorithms

Reduces number of platforms

Lowers barrier to entry

Enables more diverse model ecosystem

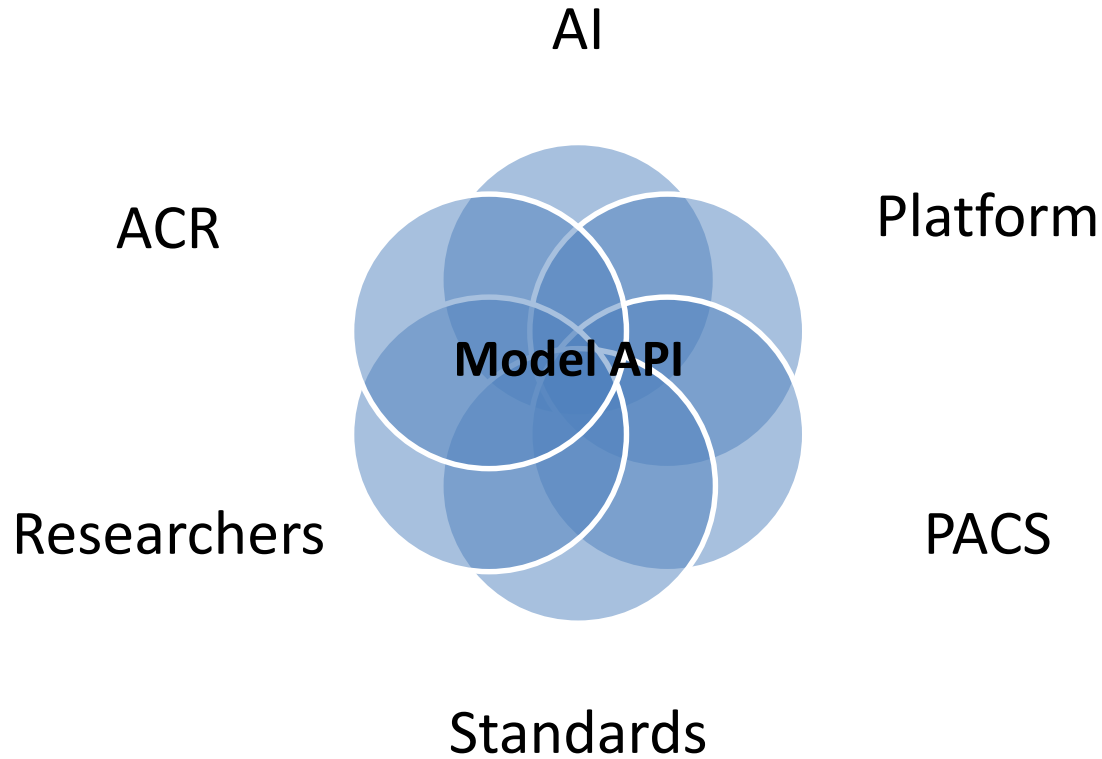

Lowers cost

Increases adoption
